

**bulk billed**  
**Low Dose CT Scans**

### CT Abdomen & Pelvis (Not Renal or IVP)

The patient will be required to fast for **8** hours prior to their examination. Please advise the patient that they will be required to drink a contrast medium with our staff, 1 hour prior to their scan time and may be given an intravenous contrast injection.

### CT Renal Tract or IVP

The patient will be required to fast for **4** hours prior to their examination. Please advise the patient that they may be given an intravenous contrast injection.

### CT Chest or CT Lung

The patient will be required to fast for **4** hours prior to their examination. Please advise the patient that they may be given an intravenous contrast injection. (If HRCT, no fasting is required).

### CT Spiral Angiogram

The patient will be required to fast for **4** hours prior to their examination. Please advise the patient that they may be given an intravenous contrast injection.

### CT Extremities / Bony Pelvis / Hip(s)

No preparation is required for these studies.

### CT Brain or Orbits

The patient will be required to fast for **4** hours prior to their examination. Please advise the patient that they may be given an intravenous contrast injection.

## IMPORTANT

- ◆ **PLEASE ADVISE RECEPTION STAFF IF YOUR PATIENT IS DIABETIC, WHEN MAKING AN APPOINTMENT.**
- ◆ **FOR CONTRAST EXAMINATIONS, RECENT BLOOD TESTS SHOULD ACCOMPANY THE REFERRAL.**
